

Trainee at Word of Life Uppsala

*Equip God's people with His word of faith
Show them their spiritual weapons
Teach them to use them and
Send them out in victorious battle for the Lord!*

Vision for the Trainee program

Closer to God, closer to each other and closer to Word of Life.

With the trainee program we want to equip individuals for ministry and be able to train our movement's future leaders and ministry gifts. We also want to create a way for young people to get into central parts of the everyday work at Word of Life church, as we let the trainees be a creative boost into the local church. The core of the program is the time together in prayer, practical teaching and training to form spiritually stable and strong leaders.

The trainee program is 3 years. After one year you need to apply for year 2-3.

Purpose year 1

The purpose with year 1 is for leaders in church to get an opportunity to give one year to God through serving in a practical way in church, and at the same time get a broader understanding of church ministry. The full year is held at Word of Life Uppsala.

Goal: You become an active leader in church

Purpose year 2

This is meant to be an intensive training of people called to actively be a ministry gift within a church or missions work, first and foremost within our movement (Word of Life International/Europe Family and the Faith movement). At least one of the 4 semesters should be in another city or country than Uppsala.

Goal: You are guided towards an active ministry (not necessarily employment) in our movement
